

Environmental Policy

L&M Tree Services is committed to preventing pollution and minimising the impact of its operations on the environment by means of a programme of continuous improvement. In particular, L&M Tree Services will:

Meet and, where appropriate, exceed all relevant legislative and other requirements; where no regulations exist, we shall set our own exacting standards.

Seek to reduce consumption of materials in our operations, reuse rather than dispose of whenever possible, and promote recycling and the use of recycled materials.
Reduce wherever practicable the level of harmful emissions.

Work with our suppliers to minimise the impact of their operations on the environment through a quality purchasing policy.
Site our operational plant so that we minimise visual, noise and other impacts on the local environment.

Include environmental issues in L&M Tree Services training programmes; encourage all L&M Tree Services staff to implement sound environmental practices.
Monitor progress and produce an environmental performance report on an annual basis.
